

# Q What does the country's largest sheet feeder use to keep its customers happy?

**John Lingle**  
General Manager,  
Schwarz Partners'  
Sheet Business Group

THE SCHWARZ GROUP'S PRIORITY IS CONTINUAL IMPROVEMENT TO MEET AND EXCEED THE NEEDS OF ITS HUNDREDS OF CUSTOMERS. THE AXIOM SUITE OF SOFTWARE FROM AVISTA IS AN INTEGRAL PART OF ACHIEVING IT'S GOALS.

“As we strive to speed up and upgrade our business model we find it critical that our software is easily customized, so it's even simpler to do business with any of our ten facilities.”

*Virtually all features in the Axiom Suite of software are able to be customized for the needs of each user.*

“We use Avista software in two major ways. First, to provide the tools to help our internal people with the best current information. And second, the software's open architecture allows us to customize it for the specific needs of our end-users.”

“Real time data lets customers know when their orders are running, what quantities are coming and when they can expect to receive them, all with a high degree of accuracy and reliability. This level of communications helps us do a better job for them.”
